

Location

Shallowater, TX (Lubbock area)

Organization

Executives Consultants Incorporated (ECI)

Position

Legislative & Regulatory Affairs Associate

Job Description

This role offers strong growth in public policy/government relations/association management, focusing on policies affecting horticultural/agricultural/green-industry sectors such as mulches/potting soils/growing media/compost/fertilizers/related products.

Responsibilities:

- Monitor state/federal legislation/regulations related to environmental, waste, water quality, pollution issues
- Track regulatory developments affecting targeted product sectors
- Prepare weekly policy and regulatory summary reports
- Identify emerging risks and opportunities
- Draft issue briefs, alerts, legislative summaries, briefing materials
- Support stakeholder engagement by representing at hearings, meetings, industry events
- Assist with advocacy strategy/coalition responses

Required:

- Bachelor's degree (completed or in progress) in a related field such as Political Science, Public Policy, Agriculture, Environmental Science, or Legal Studies
- Excellent writing, research, analytical skills
- Ability to synthesize complex information, meet deadlines, manage multiple priorities

Preferred: Internship/experience in government relations/public policy, interest in agriculture/environment/waste management/water quality.

To apply:

Email a resume, references, and a brief summary of a recent legislative/regulatory issue affecting agriculture/composting/fertilizers/soil amendments/related environmental compliance to **shellie@assnctr.com**
